Proudly Made in the USA

VALVE SENTINEL

*Maximum Protection &
Security for Your Valves*

VALVE SENTINELS

Bingham & Taylor's Valve Sentinels provide a durable, visual, and secure solution for locking out access to critical underground valves. Made from rugged carbon steel, each component is built to withstand harsh environments and resist tampering, ensuring long-lasting protection in the field. Engineered to support lock-out/tag-out procedures, these sentinel systems help utility crews prevent unauthorized operation of underground utility management systems. Each assembly includes color-coded components that ensure clarity while delivering dependable protection.

LOCK-OUT/TAG-OUT

PROTECTION

Enhance your lock-out/tag-out procedures with valve sentinels, designed to provide maximum security for your valve systems. The patented two-piece locking bar and plate allow you to use your own lock, significantly reducing the risk of unauthorized shut-off.

SECURITY & SAFETY

Ensure the safety of your valves by preventing unauthorized shut-off and minimizing confusion in service areas. Gain peace of mind by using sentinels to permanently secure a valve in the on or off position.

VERSATILE & COMPATIBLE

Compatible with all valve box manufacturers, sentinels come in a variety of sizes to fit valve boxes between 3 $\frac{7}{8}$ " to 12 $\frac{3}{4}$ ". Choose from vibrant blue, yellow, or red for easy visual identification in the field. Sentinels can be purchased in specific sizes as fully assembled units—including expander bar, plate, and lanyard—or as individual components to meet your specific needs.

VALVE SENTINEL ASSEMBLY

- Comes with expander bar and plate with a lanyard attached to the bar and plate.
- By adding a lanyard, it helps prevent the plate from falling into valve box.
- Choose what size expander bar and plate based off the inside diameter of the valve box being secured. The plate diameter needs to be smaller than the inside diameter of the valve box. Proper sizing ensures a tight, secure fit for reliable performance.
- Plates are available in multiple colors to support clear visual identification and system organization.

PART SERIES	EXPANDER BAR (Max Diam.)	PLATE DIAM.	COLOR OPTIONS
BGBA04.25Lx	4 1/4	3 3/4	Blue (B) or Yellow (Y)
BGBA04.88Lx	4 7/8	4 3/8	Blue or Yellow
BGBA05.63Lx	5 5/8	4 7/8	Blue, Yellow or Red (R)
BGBA06.50Lx	6 1/2	5 1/2	Blue, Yellow or Red
BGBA08.75x	8 3/4	7 3/4	Blue, Yellow or Red
BGBA12.75x	12 3/4	11 1/2	Blue, Yellow or Red

All measurements are in inches.

EXPANDER BARS

Select the expander bar size based on the inside diameter of the valve box you are securing.

PART #	INSIDE DIAMETER	
	MAX DIM. A	MIN DIM. B
BGBEXP-04.25	4 1/4	3 7/8
BGBEXP-04.88	4 7/8	4 1/4
BGBEXP-05.63	5 5/8	4 7/8
